Computer Science and Engg.
JNCT, Bhopal (LNCT Group)
2021 – 2025

HACKATHON

COGNIZANT COGNIVERSE HACKATHON | GitHub

Nov 2023 – Dec 2023

- Our team was one of the 20 teams selected from all over India.
- We built a Fintech website to provide financial advice to users.
- I was responsible for integrating the views with the backend, setting up the routes and controllers and setting up the server.

PROJECTS

JOB PORTAL WEBSITE

HTML, CSS, JS, React JS, Node JS, Express JS

- Recruiters are equipped with the capability to effortlessly post and efficiently manage job listings, ensuring a smooth recruitment process.
- Job seekers are empowered to seamlessly discover and apply for suitable job opportunities, with the added convenience of uploading their resumes for comprehensive representation.
- The job search functionality offers a robust system for meticulously filtering and exploring job listings based on various criteria, enhancing user experience.
- Exclusive authorization for updating or deleting job listings rests with the recruiter who initially posted the job, ensuring accountability and accuracy.
- Distinct login and registration interfaces are provided for recruiters and seekers, ensuring tailored access and heightened security.

E-COMMERCE WEBSITE

Bootstrap, Node JS, Express JS

- Users have the capability to seamlessly view or delete products from the list, providing them with control and flexibility over the product inventory.
- The addition of new products is facilitated within the system while adhering to specified constraints, thereby ensuring the preservation of data integrity and consistency.
- Existing products within the inventory can be updated as needed, enabling timely adjustments and enhancements to product information.
- Users are provided with dedicated login and registration functionalities, safeguarding access to the system and personalizing the user experience.
- EJS (Embedded JavaScript) templates are utilized to dynamically generate HTML content, facilitating the creation of dynamic and interactive user interface.
